The Greenbrier 72' IL 7780 Reefer is a large box reefer car that has an impressive capacity of 7780 cu.ft., with a 72' 3" interior length. This makes it a whopping 82' over the drawbars. The storage capacity is massive and shippers take full advantage of this feature, shipping items such as: light or bulky frozen and perishable items. This is also the ONLY larger 82' 6" reefer Union Pacific/ARMN owns in their fleet.

Since their introduction, the cars have commonly taken loads of potatoes and french fries and perishables from the Pacific Northwest and California to points east. For a time, Union Pacific and CSX ran a joint train nicknamed "The Salad Shooter" for those purposes.

The Rapido HO Scale Greenbrier 72' IL 7780 Reefer Features:

- Sound equipped cars come pre-installed with speaker and sound module from factory!
- Cyro-Trans carbody with two roof styles
- Union Pacific has specific carbody
- Lineage, AOKX and ONR unique carbodies
- Three types of end cages per the prototype
- Three types of walkways per the prototype
- Different reefer units per era
- Highly detailed underframe
- Metal knuckle couplers
- Metal grab irons and railings
- Researched from original blueprints
