The Pressed Steel Car Company built 500 41'-6" drop bottom gondolas for the Northern Pacific in 1940. These cars were used in general service on the NP, in particular coal and ore service. Numerous railroads used almost identical gondola designs like the Great Northern, Canadian National and Western Pacific.

We're excited to offer these three schemes with six roadnumbers. These will be available in limited quantities so make sure to get your orders in ASAP!

The Rapido HO Scale Drop Bottom Gondolas Feature:

- Designed from original blueprints and field measurements
- Fully detailed interior and underframe
- Rapido semi-scale metal couplers
- Free-rolling trucks with turned metal wheels
- Accurate paint and decoration
- Multiple road numbers per scheme
- Suggested minimum radius: 18"
