CP/VIA F7B & F9B

DEALER NAME:

Rapido Trains Inc. is pleased to announce the upcoming production of the GMD F7B and F9B in HO Scale. With the release of the much-anticipated GMD FP7 in the Summer of 2019, customers have been asking for the B units to complement their consists.

Construction of the Canadian-built B-units took place at London, Ontario, between April 1951 and May 1952 with 43 F7B units built (CN - 18, CP - 25) while the 46 strong fleet of F9B locomotives were delivered between January 1954 and July 1958 (CN - 38, CP - 8). CN and CP both used them on passenger and freight service with the majority of the fleet lasting well into the 1970s. CP retired its final unit in 1983 while VIA Rail kept theirs into the early 1990s.

**The Rapido HO Scale GMD F7B and F9B locomotives feature:**

- Designed from original EMD/GMD blueprints and measurements
- The **ONLY** 100% accurate GMD-built F7B and F9B locomotives
- Road-number and era-specific details applied at the factory
- Correct bodyside grilles (as appropriate)
- Steam generator equipped (or not, as appropriate)
- Correct fuel tank, end door, and other unit-specific details
- Unmatched underbody details including air piping
- Operational backup light (DCC)
- Metal Macdonald-Cartier Knuckle Couplers
- DC/Silent or DC/DCC/Sound versions featuring an ESU Loksound V5 decoder with custom, accurate recordings
