Metrolinx and GO Transit will be celebrating the 60th anniversary, for what started as a 3-month experiment, in 2027! We are delighted to be celebrating with Metrolinx with a limited opportunity to grab your own GO Transit Anniversary fleet from Rapido Trains!

In the early 1960s, Toronto was in the middle of a population boom as rapid industrialization and immigration turned the city into a major metropolis. As the population increased, it quickly became evident that the Greater Toronto Area needed a full-fledged commuter network to connect the many surrounding suburbs and communities.

Canadian National operated a limited commuter operation in the region using a mixture of transition-era equipment, but a new regional authority was needed and thus GO Transit came to be.

Launched on May 23, 1967, GO Transit's Lakeshore line between Oakville and Pickering, Ontario, began the commuter rail revolution in the GTA. Today, as part of the provincial Metrolinx agency, GO Transit's network comprises seven rail routes, 39 bus routes and over 71,000,000 annual riders (which continues to grow!).
