Rapido is excited to offer more Canadian trailers! These are the 26' Can-Car Industries Dry Vans with and without side doors, 40' Fruehauf Fluted Side Volume Vans and the 45' Trailmobile design trailers, also with and without side doors. The 26' trailers were widely used by Canadian National and Canadian Pacific for package delivery services, as well as trucking services and retail store owners. These unique trailers have the iconic ribbed sides with catchy graphics. Eventually they were phased out of service in the 1980s.

The 45' Trailmobile trailers arrived in Canada in the mid-1970s, almost a full decade before they launched in the US. These venerable trailers also had the option for side doors, for easier access. Much like the 26' trailers, CN and CP both had good quantities as well as small and large trucking services. Many wore a variety of colourful schemes, so crank up that memory machine and grab a few of these neat trailers today!

The Rapido HO Scale Canadian 26', 40' and 45' Trailers Feature:

- Landing gear has two separate pieces to create in-motion or parked positions
- Separately-applied mudflaps
- Highly detailed wheel and axle area
- 26' trailers have two styles of front stabilizing bars to create in-motion or parked positions
- Realistic rubber tires
- Three individual numbers per scheme
