

BARREL ORE HOPPER

CANADIAN NATIONAL - ONTARIO NORTHLAND

3D render, subject to revisions.

If you stood anywhere between the CN Newmarket Sub and Bayview Jct, just east of Hamilton in the late 60s through the early 90s, you probably saw one of the most unique trains to run the line: The Ore Train. Rapido is pleased to announce the CN/ONR NSC-built Barrel Ore Hoppers!

This train plied the rails from two mines owned by Dofasco in Northern Ontario to their facility in Hamilton, Ontario. At first glance the cars look like a shrunken cylindrical hopper. The reason for the round shape and covered hatches was to keep the processed iron-ore pellets from becoming frozen or damp with moisture, which would aide in a quicker unloading process. They also came in two varieties: A 35' "Short" version (Built in 1967) and a 42' "Long" version (Delivered in two batches in 1973 and 1975). The later cars were designed with a longer wheelbase, as the original 35' cars spanned the same length as the stick rail underneath, causing undue wear. Also unique is the "tire" that sits on top of the hatches. At the loadout, the tire comes into contact with a "scroll" that forces the hatches to open - taking two minutes to cycle a car or roughly an hour and twenty minutes for a unit train of 40 cars. Most times one would see CN and ONR cars mixed in each consist.

The Barrel Ore Hopper features:

- Two carbodies representing short and long Barrel hoppers
- Super-detailed underbody including all separate airline piping
- Barber S-2 100-ton Trucks with metal wheels
- Hopper bays feature highly detailed gates
- See-through, etched metal end platforms

Order Deadline - February 15th, 2023

Single Car	\$42.95 US / \$49.95 CAD
3-Pack	\$128.85 US / \$149.85 CAD
6-Pack	\$257.70 US / \$299.70 CAD
