The Rapido Tempo Cars are back!

The Canadian National Hawker-Siddeley Tempo coaches were the first aluminum, head end power (HEP) equipped passenger cars in the national fleet. These cars are all about modern comfort with many amenities. The 82-seat coaches feature comfortable seating, overhead reading lamps and doors that opened at the touch of a button. Hungry? Stroll on over to the cafe, where microwave ovens prepare piping hot food in just seconds. First class "club cars" feature ultra-comfortable 2+1 seating and hot meals served at your seat! For those of us of a certain age, the Tempo was as much a part of the Toronto railroad scene as is the CN Tower and Union Station. It's our railroad history, and we haven't forgotten it.

In 1978, the Tempo Cars were conveyed to VIA Rail Canada. Upon this exchange, their electricals were downgraded from 575V to 480V so they could be hauled by VIA's LRC and Amtrak's F40 locomotives. In 1987 most of the passenger cars were sold to the Denver and Rio Grande, Western, for use on their Ski Train. In 2009 the Tempo was sold back to CN! These cars were used on the Algoma Central's Agawa Canyon Train. The Tempo is still in service today, 50 years later!

THE RAPIDO HO SCALE HAWKER-SIDDELEY TEMPO CARS FEATURE:

- Full, multi-colour interior with individually-installed seats
- Complete underbody with separate piping and conduit
- Free-rolling, ball-bearing wheelsets
- Track-powered interior lighting and working marker lights
- Etched-metal end gates
- Metal magnetic knuckle couplers
- MoPower capacitor for uninterrupted DCC lighting
- Suggested minimum radius: 22"
