NEW HAVEN 8600 COACHES

SAYBROOK

2ND RUN!

The New Haven modernized its postwar passenger fleet with new lightweight passenger cars. 103 new coaches were produced in the old Osgood Bradley factory in Worcester, MA, along with parlor cars, diners and others.

In 2016 we released our first run of New Haven 8600-series coaches. Since then we have produced matching Parlors and Diners. Many customers have asked us for more coaches, and we're happy to comply! This second run features all new car numbers and also includes McGinnis cars with full skirts, previously only available from the New Haven Technical and Historical Association.
