

The Canadian

SEVEN Different Passenger Car Styles!

We are delighted to introduce our most monumental N scale model to date: The Canadian! Canada's flagship train will be available in a 10-car set with some additional cars available to order separately.

The Canadian was introduced by Canadian Pacific in April 1955 as its flagship transcontinental passenger train from Montreal and Toronto to Vancouver. It featured new FP9A locomotives and a consist of new stainless steel passenger cars built by Budd in Philadelphia.

The Canadian lasted with Canadian Pacific until 1978, when it was transferred to VIA Rail Canada. It continued to operate on the original Canadian Pacific routing until 1990, when it was moved to CN tracks. VIA refurbished and upgraded The Canadian to Head End Power and relaunched in 1992 under the "Silver and Blue" branding.

The train was recently upgraded again, adding "Prestige" service cars at the rear. These are Chateau Sleepers and Park Cars converted to gorgeous suites with queen-size beds and private showers. Despite suffering from poor timekeeping by "the freight railway," The Canadian is still VIA's flagship train. It still operates with the original Budd cars, and it still delights riders from around the world.

The Canadian N-scale set comprises seven different Budd passenger car styles, and our set includes extra coaches and sleepers to create a longer train. The prototype could include as many as 30 cars, but is regularly between 18 and 22 cars long.

Sets include:

- Baggage-Dormitory
- Coach (set includes two)
- Skyline - Dome-Coach or Dome-Coffee Shop
- Diner
- Chateau Sleeper - 4 sections, 8 duplex roomettes, 3 bedrooms, 1 drawing room (set includes two)
- Manor Sleeper - 4 sections, 4 roomettes, 5 bedrooms, 1 compartment (set includes two)
- Park Car - Dome-Sleeper-Lounge-Observation

PRESTIGE SLEEPER CABIN - DAY SETUP

Making a train that has been in service for over 60 years is a lot of work! It is our pleasure to offer the first models - in any scale - of VIA Rail Canada's Prestige Park Car and Chateau Sleepers.

In 2011 VIA began a rebuild program on eight Chateau Sleepers and four Park Cars to create a high-end, luxury service aboard The Canadian. Called Prestige, this service has been hugely successful and goes a long way each summer towards offsetting The Canadian's operating costs.

Our Prestige cars feature the all-new interior arrangement of the real cars, along with the rebuilt car side to incorporate enormous new picture windows in each bedroom.

Order Deadline January 13, 2020.

SKYLINE

Skyline Mid-Train Dome Cars

Everybody loves a good dome car, and The Canadian has almost always run with a minimum of two per train. Since the late 1990s, four domes has been the de facto standard in the high season.

The Canadian contains two dome cars - the Skylines and the Park Cars. We are offering additional Skylines to expand your consist. Like the other Budd cars, Skylines have also been standard fare on the Atlantic, Ocean and other trains. Heck - we even chartered our own Skyline back in 2015!

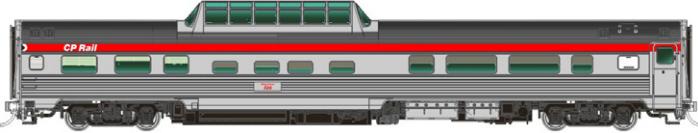

The Skyline cars feature two different interior arrangements:

- **Dome-Coach (1955-1983)** has coach seats on the lower level of the long end and operates long-end forward.
- **Dome-Coffee Shop (1983-present)** has a coffee shop on the lower level of the long end and operates short-end (lounge) forward.
