**CONDITIONAL ORDER DEADLINE: JUNE 15TH, 2026**

After 45 years of reliable service, the Bombardier LRC (Light, Rapid, Comfortable) passenger cars are soon to be retired. To celebrate the incredible achievement of this passenger car fleet, Rapido Trains Inc. is delighted to introduce the LRC locomotive in N scale!

The LRC locomotive was an extremely powerful locomotive in a small package. Despite only being 12 feet tall and 63 feet long, it packed a 3750 HP Alco 251F prime move plus two 250 KW Stamford alternators to provide Head End Power. It was built for 125 MPH operation, though it was restricted to 100 MPH in service. Nevertheless, the LRC pulled the Metropolis express between Montreal, Dorval and Toronto throughout the 1990s. At 3 hours 59 minutes for the 335-mile run, this remains the fastest scheduled passenger service in Canadian railway history. Just think about this: after Canada spends tens of billions of dollars on high speed rail, the travel time of the Metropolis won't be improved by all that much. It makes you realize how amazing the LRC truly was.

Bombardier produced ten LRC-1 cars which went to Amtrak in 1980, followed by 50 LRC-2 cars delivered to VIA in 1981 and 1982. 50 more LRC-3 cars were delivered to VIA in 1984 and 1985. The LRC-1 cars were returned to VIA in the 1980s, refurbished and repainted in VIA colours for use almost exclusively on the International between Toronto and Chicago. The remaining VIA cars have been used on all trains in the Windsor-Quebec City Corridor. VIA's LRC cars were hauled regularly by all of VIA's HEP-equipped locomotives: LRC, F40PH-2D, and P42DC. Amtrak's LRCs were pulled by LRC, F40PH and AEM-7 locomotives. They were even seen behind HEP-equipped E-units!

**LRC**  
TOMORROW'S TRAIN TODAY

Welcome to the LRC train  
Bienvenue à bord du train LRC

The LRC train is a modern concept in relaxing accommodation for intercity travel. It is our sincere hope that its special comfort and convenience features will make your trip most enjoyable. The guide sketch below should be of assistance to you in taking full advantage of the facilities provided at your seat. There are two wash-rooms at one end of the car on either side of the aisleway.

Smoking, non-smoking areas will be indicated by means of pictogram signs. Numbers of the train will direct you to your section of your choice.

For your convenience and beverage service will be provided at seat by an Attendant. There is a foldaway table which retracts into the arm rest. Just flip the arm rest to see this.

For your convenience, litter bags are provided in the seat.

We remind you that consumption of alcoholic beverages will be in accordance with Provincial regulations. These provisions prohibit the consumption of liquor on trains.

Employees are responsible to enforce regulations as well as prohibiting "No Smoking" signs of the cars. Please relax and thank us for making VIA.
