Rapido Trains is pleased to announce a new model of EMD's E7 passenger loco in HO scale!

EMD's first wide selling passenger diesel, 428 E7 A-units were built between 1945 and 1949, along with an additional 82 E7Bs. The carbody utilized EMD's bulldog nose made famous on various F-units starting from the FT while carrying over the rectangular side windows seen on earlier E-units.

The E7 became a cornerstone of post-war passenger service and could be found at the head of many railroad's passenger trains. Replaced by later versions like the E-8 and E-9, many E7s found themselves bumped into lower service including local passenger and even freight service. Several E7s operated in New Jersey commuter service past the formation of Conrail. Only one E7, former PRR #5701, survives, restored at the Railroad Museum of Pennsylvania.

THE MODERNIZED RAPIDO E-UNIT FEATURES:

- Accurate nose and roof contours
- Both Phase I and Phase II carbodies
- Roadname specific side vent variations
- Multiple different nose configurations
- Two different back ends
- Different steam generator options
- Single- or dual-headlight configurations
- Freight or passenger pilots
- Skirted or non-skirted fuel tanks
- Original square and slope or Hyatt roller bearing journal boxes
- Heavy die-cast chassis
- Smooth running drive system with all wheels powered
- Complete lighting effects – headlights, class lights, backup lights, ground lights, cab lights and more.
- Numerous road-specific detail parts in both plastic and etched metal
- MoPower capacitor system for uninterrupted DCC running
- DC/DCC ready or Dual-Mode DC/DCC/Sound
- Suggested minimum radius: 22"
