## *The Wide Vision Caboose returns in N scale!*

Between 1972 and 1981, Canadian Pacific's Angus Shops in Montreal built over 300 modern, wide-vision cabooses or "vans" and thus gained the nickname "Angus Van." They proved popular with crews and many are still on the road today, as shoving platforms or rider cars in MOW service.

This caboose is similar to many other wide vision cabooses that are commonly seen throughout North America. Ours will feature 27 popular schemes including multiple maintenance-of-way variations, a Desert Storm tribute and even a Bicentennial scheme!

## **The N Scale Wide Vision Caboose Features:**

- *Now featuring track powered interior lighting and operating end marker lights on DC and DCC*
- MoPower capacitor for uninterrupted caboose lighting
- Super-detailed underbody including all separate air and brake piping
- Free rolling Barber-Bettendorf caboose trucks
- Detailed interior
- Separate metal grab irons installed at the factory
- "Warm white" lights that aren't too bright!
- Optional roof mounted air conditioner
- Optional fuel oil tank details (road name dependent)
- Knuckle couplers mounted at the correct height
- Full end detail, including uncoupling levers
- Suggested minimum radius: 9 3/4"
