## Environment Rating Scales (ERS) Introduction and Module Trainings:

What are the Environment Rating Scales (ERS) and how do they contribute to continuous quality improvement in early learning programs? The ERS are quality indicators on which Oregon's Spark rating is based. Whether or not you are currently participating in Spark, intend to, or are just interested in learning more, the ERS can help you improve the quality of your early learning environment, understand what quality looks like in an early childhood program and why. **In order to take the Set 2 ERS Module trainings, you must plan to take the Set 1 Intro to ERS on January 11.**
