✓ Performance FUNDING Project **Early Learning Performance Funding Project**

In 2014, the Florida Legislature approved a special pilot project to see whether specific training approaches improve how well children do in school readiness programs. The project was approved to continue into the 2016-17 fiscal year.

The project gives eligible, selected child care providers and their instructors an opportunity to earn additional compensation for improving school readiness program outcomes. To be eligible to participate, at least 30 percent of a provider's birth-5 enrollment had to be children in the School Readiness Program. Nearly 900 child care providers applied to be part of the 2016-17 project; 479 were selected to participate. Each provider selected has been assigned to a group offering specific professional development.

Participating providers can click on the image below to go to the online system.
