BUILDING COMMUNITY

With so many young Catholic adults in their **20s and 30s** in the greater Tacoma area, there's a great need for strong, faith-filled community. We're about forming **connections** and **meaningful growth** alongside each other. If you're seeking this too, **we're here for you!**

Each month we make it a point to **build these connections.** This includes Study Discussions, where we go deep with relevant topics and learn about the Saints. Our monthly Service Saturday's are spent in projects for the broader community. And at the end of the month, we make time for getting together at a local family friendly pub to catch-up and meet new friends. We are ever expanding and looking for new ways to make connections and cultivate fellowship!
