## 2025 Pilgrimage

July 28 - August 7

This year, on the 80th anniversary of the atomic bombing of Hiroshima, the pilgrimage will focus on people and places in the Pacific Northwest impacted by the U.S. nuclear arsenal, including Midnite Mine on the Spokane Reservation, Hanford, and the Trident Submarine Base.

## Program Overview

In a world facing multiple threats including authoritarianism, climate crisis, and war, we will explore the spirituality and strategies of nonviolent social change. A guiding question will be, "How do we create the more beautiful world we so deeply desire?"

We will hear from tribal leaders, community members, and others impacted by the U.S. nuclear weapons program, as well as from Norimitsu Tosu, an 83 year-old atomic bomb survivor from Hiroshima.

## Support the Pilgrimage

We are looking for local support in Spokane, Hanford, and Seattle. To help, reach out to [fumi@dandelionhouse.org](mailto:fumi@dandelionhouse.org). Checks can be made out to Dandelion House, or use the QR code to donate!
