FIRST FINANCIAL BANK

Friday, July 31, 2026

Dear Customer,

This is a reminder that all MDEQ permits are scheduled to expire in **October 2026**. **To avoid delays in future loan requests and loan servicing requests, your farm needs to have a current Manure Export Plan/Nutrient Management Plan and MDEQ Permit.** It will take time to get the new permit and plan active.

Please provide us with copies of the New Manure Export Plan/Nutrient Management Plan and the MDEQ Permit once you receive them. We will be happy to make copies of these documents.

To help avoid any interruption in compliance, please take the following steps as soon as possible:

1. **Contact your local NRCS office** to verify your current plan's expiration date.
2. **Begin the renewal process early** if your plan is nearing expiration.
3. **Apply for your Mississippi Department of Environmental Quality (MDEQ) permit** to ensure all required documentation is completed before your current plan expires.

Starting the renewal process now will help prevent delays and allow adequate time for preparation and approval. If you have questions or need assistance with the renewal process, please contact your local NRCS office.

Rusty Parrish
rparrish@mdeq.ms.gov | 601-961-5193 | Environmental Permits Division MDEQ

Thank you for your prompt attention to this important matter and for your continued commitment to responsible nutrient management.

Sincerely,
First Financial Bank – Poultry Lending Division Team
