

Dana's Directors Report

February 2022

Oakland Community Health Network (OCHN) and the Oakland County Health Department continue to be partners and expand efforts that support and ensure the community has access to physical and mental health care.

Examples of integration include joint efforts to vaccinate citizens against COVID-19 and flu, as well as educating the community on the mental health impact associate with the virus.

OCHN is also collaborating with the County's Executive leadership team, the Board of Commissioners (BOC), and OCHN's contracted service provider network in response to the mental health needs of the Oxford community, students, and their families.

I am thankful for the open dialogue with each of these groups and the commitment to develop and produce results that promote the well-being of all Oakland County residents.

OCHN is taking steps to enhance its awareness and outreach strategies with new services information videos; a more user-friendly website; and forward-facing, grassroots efforts to connect with individuals.

This includes the approximate 60 OCHN staff who serve on more than 100 committees and workgroups throughout the county and state to tackle behavioral health issues.

Finally, in recognition of February being Black History and Jewish Disabilities Awareness Month, I want to recognize the extraordinary Diversity, Equity, and Inclusion (DEI) efforts of OCHN staff and network providers.

Their diligence to ensure all people, regardless of race, religion, or gender, are treated with respect is a tremendous asset to OCHN's service delivery system and work environment. Change begins with people who are willing to make a change.

Sincerely,

Dana Lasenby,
OCHN Executive Director and CEO

OCHN'S Mission

Inspire Hope | Empower People | Strengthen Communities

Always putting people served first, ongoing review and continuous quality improvement to internal standard operating procedures and process, including investing in the OCHN workforce, branding, and highlighting community impact!

OCHN's STRATEGIC PRIORITIES

- Enhance and Expand Access to Non-emergent and Crisis Services
- Integrated Behavioral Health Care
 - Behavioral Health Home (BHH)
 - Certified Community Behavioral Health Clinics (CCBHC)
 - Complex Care Coordination
- Improved System of Care for Children & Families
- Provider Relations & Value Based Outcomes
- Workforce Development for:
 - Direct Service Professionals (DSP)
 - Direct Care Workers (DCW)
 - Licensed Clinicians

Access to Public Mental Health Services Overview
