

Dana's Directors Report

May 2022

I want to extend a heartfelt thank you to everyone who participated in Oakland Community Health Network's (OCHN) Three-year Strategic Plan Needs Assessment. Your input regarding the delivery of public mental health supports in Oakland County helps guide all decisions that impact the lives of people.

I am also happy to report there was a 42% increase in responses over last year's needs assessment, and that the group who answered survey questions most often was individuals who receive services. Keeping their voices first in all program-related conversations is a priority of OCHN's Board, leadership, and staff.

Other data gathered from the assessment was recently shared during OCHN's, May Committee of the Whole meeting. The presentation, which can be viewed on OCHN's website, provided valuable insight into areas of improvement and satisfaction.

This includes statistics that show 80% of persons served report Direct Support Professionals (DSPs) are supportive of their needs. Ninety-five percent of DSPs report they are treated with respect in their position as caregivers. This valuable information highlights the critical need for ongoing efforts to recruit and maintain the direct care workforce.

Additional priority areas noted in the assessment include enhanced crisis response for children and families; physical and mental healthcare integration; and transportation. All of which are currently being discussion by OCHN's leadership team during the strategic planning process.

Opportunities for further public comment will be made available in July of this year when the draft strategic plan is released for review. I encourage you to remain engaged, as well as recognize the key role you play in shaping OCHN's service delivery system.

Sincerely,

Dana Lasenby,

OCHN'S Mission

Inspire Hope | Empower People | Strengthen Communities

Always putting people served first, ongoing review and continuous quality improvement to internal standard operating procedures and process, including investing in the OCHN workforce, branding, and highlighting community impact!

OCHN's STRATEGIC PRIORITIES

- Enhance and Expand Access to Non-emergent and Crisis Services
- Integrated Behavioral Health Care
 - Behavioral Health Home (BHH)
 - Certified Community Behavioral Health Clinics (CCBHC)
 - Complex Care Coordination
- Improved System of Care for Children & Families
- Provider Relations & Value Based Outcomes
- Workforce Development for:
 - Direct Service Professionals (DSP)
 - Direct Care Workers (DCW)
 - Licensed Clinicians

Access to Public Mental Health Services Overview

Respond to community request for public mental health services, including eligibility determination as of April 30, 2022:

- Total phone calls to OCHN Access: 3,930
- Total phone screens: 599
- Urgent Requests (need to be seen within 24 hours): 205

Oxford Response Update:

Access and crisis calls received directly related to the Oxford incident in April 2022: 5

Approximate Number of persons served during crisis response events to date: 2,300

Number of persons who have applied for the insurance co-pay benefit: 113

OCHN met with its provider network to discuss ongoing support for the Oxford community crisis. Common Ground, Easterseals Michigan, and HONOR Community Health met with leadership and reported on school-based mental health programs and the launch of the Resiliency Center being funded by the Department of Justice Victims Assistance. Information about the mental health supports in Oxford are available on the [Oxford School website](#) and the new ["All for Oxford" Resiliency Center Website](#).
