

What is the CommUnity Campaign?

**The Messaging:**

Whether you are a student, a local, or just visiting, We welcome all.

**Within the word community, we find Unity!**

- We want to provide businesses and organizations throughout our community with a quick way to show that everyone is welcome through a recognizable CommUnity brand.
- Additionally, the EDA will feature events, programs, and acts of unity focused on bringing people together.

*Whether you're here for a short time, a long time, or a good time, we are bringing people together with a sense of pride and unity.*
