

TABLETOP WARGAMING CONVENTION

# WARHAMMER AGE OF SIGMAR: NARRATIVE

## NOVA Open EVENT LEADS Providing News & Updates

11/15/2019:

Thanks to all the Warhammer: Age of Sigmar players who attended NOVA Open 2019. In this year of anniversaries, it was the 5th year running AoS events and 4th Grand Narrative set in the Realm of Shadows. After three days of narrative games, 28 players participated in an epic siege to conclude the 2019 event with the defenders of Umbershire just barely keeping Archaon and the attackers from overrunning the city! Some games of Warcry were squeezed in at NOVA Open, as well, with warbands completing missions for the wizards positioning themselves for powerful seats on the city council after the siege.

Age of Sigmar leads are planning even more narrative action for 2020 and will be integrating Warcry into the grand narrative. Players should be able to play only AoS games in the narrative event, or stick with the smaller Warcry games, leaving time to attend other events and seminars. The ambitious player can play both Warcry and AoS to enjoy the full variety of narrative gaming throughout the entire NOVA Open convention to level up special heroes and employ custom terrain.

## Skyvessels Over Ulgu Umberspire

Clipper is the colloquial name for a class of fast merchant skyvessel used for blockade running and smuggling throughout Dawnland, in the Mortal Realm of Ulgu. The helm of each Clipper is equipped with a Shadowcloud drive which, although unstable, can move the vessel between shadows. Each player may design and build a Clipper to use in games as a movable terrain piece. Details will be provided after playtesting is complete to build your own Clipper. As an alternative, we are also playtesting with large flying monsters for more primal warbands to ride across the skies over Dawnland. If you're interested in participating in the skyvessel Warcry playtest please contact [customerservice@novaopen.com](mailto:customerservice@novaopen.com)
