HELP US EXPAND HOPE

Support the Growth of our Children's Hospital!

Founded as a Rotary hospital, the mission has always been to provide exceptional care and hope to children and families in need for our international community in Cartagena, Colombia. Casa del Niño turns no one away and is a vital source of care for the most vulnerable and needy of all. Thanks to your generous support, we've successfully raised funds for a new operating room, state-of-the-art surgical equipment, and a vibrant kids' play area—creating a brighter, healthier future for countless children.

Now, we need your help to take the next step. The hospital expansion will increase capacity, add new pediatric specialties, and improve facilities to ensure every child receives the best possible care.

Join us in finishing what we started!

Your donation will directly impact the lives of children and families, giving them access to medical treatment in a comforting environment.

Together, we can build a healthier tomorrow.

Please support our campaign and help us complete this vital expansion!

Donate today and be a part of something truly life-changing.
