GIBSON ENGINEERING

Automation solutions for manufacturers

Enhancing productivity, competitiveness, and profitability

Hands-on UR Cobot Event!

FREE Beer & Apps or Kart Racing

(location dependent)

Join us for an afternoon of learning followed by an evening of fun!

During this event you will:

- ✔ Work hands-on with a collaborative robot at one of 4 UR5e lab stations
- ✔ Spend time learning how to control & program robots to accomplish specific tasks (details below)

Solutions demonstrated live

Enabled Robotics: Mobile Cobot

OnRobot: Palletizer

Vision Guidance: Asyril Eye+

Safety& UR Caps

Steps to creating a well-designed, safe and easy-to-use co-bot program

Palletizing

Expand your existing program to put your parts in trays or directly onto a pallet

Pick & Place

Create the program that is the basis for over 75% of applications

Optimization

Advanced Concepts to give your program a special touch of optimization
