

LightSweep

Our Solution Goes Viral

Automate keeping your employees and work areas safe from virus and bacteria. Our **autonomous robot** solution utilizes UV-C light to help kill viruses and bacteria on work surfaces. This powerful solution works when your facility is closed so you can open more safely in the morning morning.

WE CAN HELP YOU!

- Automated nightly cleaning of your facility with UV-C light
- Improve employee safety & confidence in their workspace
- Certified 3rd-party lab testing of office space
- Dosimeter cards for your facility
- Patent Application No. 63/031,160
- Scheduling software so no operator needed to start
- Optional spray attachment
- Articulating light to reach even more areas (LightSweep)
- Infrared temperature scanner to protect employees at night
- More UVC lights to reduce drive time and maximize coverage

Value packages with all accessories and training start at \$92,000.
