

Im At Holekhet: Whether You Go

Avraham Tal

Chorus:

Whether you go or come back/may your day end well

You're on your way out, you look happy/my heart is with you all day

Verse 1:

I close my eyes and let go of your hands/and suddenly it all looks like a dream

You face me and are smiling/I understand how hard we've worked up to now

Chorus

Verse 2:

It's afternoon, and the sun is in the sky/and we hear the kids from afar

It sure isn't winter, it's barely spring/good days give us the strength to laugh

Bridge:

Pay attention to me—we'll fall in love again/let's talk to grow closer

And to experience one another like new

Give me your heart, it's waiting/let the pain heal

And experience one another like new

Chorus
