July 17<sup>th</sup>, 2020

Dear Nuestro School Families:

Governor Newsom announced today that schools on the monitoring list must begin with distance learning only. Governor Newsom further stated that schools should not open for in-person instruction until the county is off the monitoring list for at least two weeks.

What does this mean for Nuestro School? This current decision may require us to begin the 2020 -2021 school year with distance learning. As you know, Nuestro School has worked tirelessly to create a reopening plan that is safe for students to attend school in person. However, this new mandate changes what we may be able to do.

The staff and I will be meeting to discuss details and information surrounding this new information. As soon as I know more, I will share with the Nuestro School community.

In this very difficult time, please know that there is nothing more important to me than all of you. Your students are my top priority and you have my word that no matter what happens on August 13, your child will feel the love and support from the entire Nuestro School staff.

Please stay safe.

Sincerely,

Dr. Bal Dhillon
