

SUTTER UNION HIGH SCHOOL DISTRICT

COVID-19 School Reopening Update

Friday, February 26, 2021

Good Evening,

I hope all of you are well. As most of you know by now our plans either change pretty fast because of COVID-19 or they don't. If you would have asked me last week if we were going to play football this season, I would have told you we don't have a snowball's chance in the Buttes of playing. And Bam! Just like that the governor switched football to the RED tier and we now have a schedule.

We have modified the March Instructional calendar that we posted last week. These new modifications allow us to proctor State Science, Math and English Language Arts testing for our Junior Class. On Friday, March 26th we will rip off the band aid and bring all students back to campus for a trial run at full capacity. Please review the March calendar when you have time.

I cannot thank all of you enough for the patience and support you have shown our school for the past 11 months. March will mark one year of providing educational services under COVID-19 guidelines. We will continue to work hard to minimize the lasting effects this ordeal has had on our students. We still have some heavy lifting to do to get through this school year. I am confident we will conclude the school year like we started. TOGETHER!

Please check our district's website: sutterhuskies.com for COVID-19 school closure updates. Be safe, be prepared, support local small businesses and take care of each other.

Ryan Robison
Superintendent/Principal
