End Date: Flexible, no later than Aug 31, 2022

Job Description

We are seeking up to three (3) candidates for a paid internship in data science. Internships will be during summer (roughly April - Aug) 2022, and applicants interested should apply to this advertisement. This internship program is co-funded by the University of Wyoming EPSCoR Program and Western EcoSystems Technology (WEST), Inc. The goal is to increase the interns' competitiveness for computational and data science careers in academic, government, and/or commercial settings. Applicants must be current students or recent graduates (within the past 3 years) of the University of Wyoming or a Wyoming community college.
