

Student Intern - Engineering (DFS) (Summer 2022)

Open Date: 2/1/2022 Close Date: 2/27/2022

Department/Location: Operations / Dry Fork Station; Gillette, WY

Company: Basin Electric Power Cooperative

Position Purpose:

This temporary position provides engineering assistance to Dry Fork Station (DFS) staff, along with being an on-site liaison to gather information for headquarters (HDQ) engineering projects. This position is anticipated to be on staff through the summer of 2022.

Qualifications:

To perform effectively in this position, the incumbent must be at least 18 years of age and be currently enrolled as a full-time student in a four-year Engineering Accreditation Commission/Accreditation Board for Engineering and Technology (EAC/ABET) accredited mechanical, electrical, civil, chemical, or energy systems engineering program, with sophomore year completed. A minimum of a 2.5 grade point average (GPA) is required. The incumbent must be proficient with personal computers and Microsoft Word, Outlook, and Excel; and must be able to demonstrate effective written and verbal communication skills. A valid driver's license is also required.

Typical Physical/Mental/Environmental Demands:

This position requires frequent sitting; and occasional standing/walking, bending/reaching, climbing, kneeling, crawling, use of keyboard/computer, pushing/pulling up to 60 pounds and lifting/carrying up to 50 pounds. This position also requires finger dexterity, hand coordination, good hearing, and color vision. It also requires the ability to analyze data/reports and conduct research; implement recommendations; develop plans, procedures, and goals; and present information to others. The incumbent may be required to work under pressure due to conflicting priorities and deadlines. This position occasionally may work in conditions of dirt/dust, fumes, chemicals, extreme heat/cold, vibration, noise, poor ventilation, electrical risks, and confined areas. It also may have to work at heights up to 300 feet, which requires the use of safety equipment, including a harness, in accordance with ANSI Z359 standards, and may access all areas of the plant site. Travel may be required, either by operating a motor vehicle or traveling in Cooperative or commercial plane. The incumbent must be able to operator a motor vehicle. Equipment operated includes computers, telecommunication devices, and test equipment, as needed. The incumbent will need to be respirator qualified.

This internship requires an **unofficial** copy of your transcript be submitted.
