

AdvancedGeotechnical
Solutions

POSITION ANNOUNCEMENT

Advanced Geotechnical Solutions is a full-service geotechnical engineering firm founded in 2016 and based in Casper, Wyoming. We focus on using advanced exploration and geotechnical engineering analyses to better understand the soil and rock we build on.

Solid talent is hard to find, and as we continue to grow, it is imperative we add quality people who embrace a culture committed to superior client satisfaction, teamwork, professionalism, and continuous learning. We are searching for team members who fits this culture. These positions have excellent future growth potential for the right candidate!

Geotechnical Engineer I

This opportunity is available for college graduates with an engineering degree, preferably with an area of focus being in geotechnical engineering. The candidate will gain experience in geotechnical engineering under the direct supervision of the firm's leading engineering professionals.

The Geotechnical Engineer I position is responsible for a variety of duties in support of the geotechnical engineering department. Basic duties include:

- Work in a safe, efficient, and detail-oriented manner
- Prepare geotechnical design reports under the guidance of a senior engineer
- Perform routine tasks, tests, and computations associated with geotechnical engineering, construction materials testing, and field observations under a senior geotechnical engineer's supervision
- Perform laboratory analyses in support of construction materials testing and geotechnical engineering projects
- Perform geotechnical field investigations
- Perform construction materials testing oversight
- Collect field samples and perform field logging of exploratory test borings
- Independently operate relevant equipment
- Use exceptional time management skills and have the ability to manage multiple assignments at any given time

Our projects span roads and highways, dams and reservoirs, offices and warehouses, conventional and green energy, recreational facilities, and many other types of projects that our clients need. We deliver professional services throughout the project lifecycle.

Advanced Geotechnical Solutions is an equal employment opportunity company with a drug free workplace. All qualified applicants will receive consideration for employment without regard to, among other things, race, color, religion, sex, national origin, age, status as a protected veteran, or disability. In addition to our competitive wages and incentives we provide the opportunity to become an integral part of the continued growth of our company.

Interested applicants should email their resume to INFO@AGS-West.com
