First Presbyterian Church of Petoskey has partnered with First Hand Aid providing medical supplies, medicine, school supplies, and hope to the people of Cuba for the last eight years. Working with local Presbyterian churches in Cuba we help stock medicine in the poorest regions around Havana. Pastor Ryan has led over ten humanitarian trips into Cuba since 2016 and continues to lead two trips a year with First Hand Aid.

We are asking for the Presbytery of Mackinac to bring Over-The-Counter medicine to the Presbytery meeting that we will take to Cuba in November of this year. Especially needed items are: children pain meds, Vitamin C, Cough Drops, toothbrushes and toothpaste, hygiene supplies, and diaper cream. Although all Over-the-Counter meds are necessary as Cuba currently is not able to provide any medicine to its people.

Over the last eight years things in Cuba have continued to decline with President Diaz asking the UN for helping in feeding the Cuban people for the first time in its existence. Thank you for your willingness to help out.

Rev. Ryan Donahoe, (he/him)

Pastor, First Presbyterian Church of Petoskey
