

Kinetic Church

February 2019 Update

We held our first Soft Launch service on January 6th with 20 people in attendance (mostly our volunteers), but for our Hard Launch service on January 27th we had 55 worship with us. We

are continuing to grow by about 10 new people every week. One of the most exciting parts of our church-planting journey has been our partnerships.

At an organizational level, we have not just our Nexus family behind us, but we've been able partner with Waypoint Church Partners and Passion for Planting. We look forward to God doing big things in South Carolina and being able to create a church-planting network here in South Carolina.

At a local level we are excited that we've been able to partner with our local school district and the Mayor's offices of Cayce and West Columbia, SC to pack our trailer full of non-perishable food goods. This has allowed us to stock a food pantry for students who experience food insecurities at Airport High School and Fulmer Middle School.

This journey certainly hasn't always gone to plan, but we have certainly learned that God's plans are greater than ours and you just have to have fun on the ride.

Kevin and Stephanie Huston
