

Coronavirus (COVID-19) Pandemic: Whole-of-America Response

Attached you will find today's FEMA Daily Briefing Points for the Whole-of-America response to coronavirus (COVID-19) pandemic. These briefing points include Topline Messages, as well as Supply Chain Task Force; By the Numbers; FEMA and Department of Health and Human Services Response; and Guidance from Federal Agencies.

Topline messaging includes:

- FEMA, HHS, and our federal partners work with state, local, tribal and territorial governments to execute a whole-of-America response to COVID-19 pandemic and protect the health and safety of the American people.
- FEMA continues to expedite movement of commercially pre-sourced and commercially procured critical supplies from the global market to medical distributors in various locations across the U.S. through [Project Airbridge](#).
- Last night, FEMA Administrator Pete Gaynor [issued a letter to the nation's emergency managers](#) outlining lessons learned from the first 30 days of FEMA leading the “Whole-of-America” response to the coronavirus (COVID-19) pandemic.
 - Specifically, the letter addresses preservation and prioritization of scarce resources; use of data-driven decision making; utilization of key federal medical staff, Federal Medical Stations and Large-Format Alternative Care Sites; mitigation efforts to flatten the curve; strengthening the supply chain; as well as the importance of busting myths.
 - This guidance is a follow-on to the Administrator's [first letter to emergency managers](#) on March 27, which requested key actions and outlined critical steps for the initial COVID-19 response
- The White House announced [a new collaboration by Schema.org](#) to help Americans find the most up-to-date public health guidance and the most relevant information on testing facilities in their communities.
 - Standard tags were created that can be [added to any website's code](#), making it easier to find COVID-19 prevention measures, disease spread statistics, quarantine rules and travel guidance, and testing information through online search engine results.
 - All federal websites will incorporate these new Schema.org standard tags. The private sector, state and local governments, and the academic community are encouraged to do the same.
