During this time of social distancing, it is more important than ever to provide a musical format for people to keep singing - enriching the mind, body, and spirit. Would you like to present a song in February?
Presenters have 5-10 minutes to introduce their song and teach, either by call and response, rehearsing challenging phrases, or, if a simple melody, the choristers will sight-read and join in when ready. The music score or lyrics are shown while the song leader sings and plays. Everyone is muted except the presenter.

If you would like to present a song in February, the theme will be LOVE, LOVE, LOVE! Decide on your song then,

1. Choose one Wednesday. (This would be best for a familiar or easy song. If this is your choice, please send Kaden Larson a PDF of your music score, as well as the lyrics of your song.)
2. OR choose two consecutive Wednesdays. (This would be better for a song that might take us a little longer to learn. (If this is your choice, please send Kaden Larson a PDF of your music score, as well as the lyrics to your song.) Our choristers enjoy the challenge of reading music
3. Please indicate your name and song title on the goggle doc below, for the day(s) of your choice.
