Do you want to make history by getting the COVID-19 vaccine out to your community? Good news! You can, by joining the Monroe County Medical Reserve Corps!

As the COVID-19 vaccine becomes more available and we enter phases to vaccinate large portions of the public, the Monroe County Health Department will need your help.

The Medical Reserve Corps (MRC) is a national program organized locally to coordinate volunteers in the event of a disaster or public health emergency.

Anyone is free to join, **medical and non-medical**, as long as they are 18 years or older and do not have a criminal history.

Volunteer roles can vary depending on your background. Your time and involvement are always completely voluntary.

If you are interested in volunteering, please email us at **monroemrc@co.monroe.in.us** for registration instructions and more information.
