RE: Future Administrator Seminar

The Board of School Trustees has adopted the following:

*“Identify potential administrators among the TSC faculty and provide them with appropriate training and leadership opportunities. This will include a portfolio of activity choices for internship experiences, joint ventures with other school corporations, and opportunities for community based leadership training.”*

Since 1998, 180 TSC teachers have attended some or all of a series of four evening seminars in support of this activity. Subsequently, 76 of those participants have been assigned as administrators in TSC or other school districts.
