

## **New Anthem Health Insurance Cards**

Anthem recently announced that it will be moving its' pharmacy benefit management (PBM) transition away from Express Scripts (ESI) and to "Ingenio RX" sooner than previously anticipated. There will be no immediate impact on the formulary or pharmacies in the network. We were just made aware that because of this transition, you will be getting a new Anthem ID card in the mail. Your new ID will have your same member number and plan information. The change to the ID card will be the "RX BIN" number.

We are told that BOTH your current ID card (received last summer) AND the new ID card will work until March 31, at which point only the new ID card will work. Because of this, we encourage you to discard your current card once the new cards arrive. Again, the new card will begin working immediately and should be the one used once received.

At this time, no changes are needed to be made with any mail order services however please be on the lookout for further instruction.
