

Get Started with Savings

01

Set a Goal and focus on the WHY

Whether you need new tires or want to save for a down payment on your future home, setting a goal will keep you motivated.

03

Find ways to cut expenses

Check for subscriptions you don't use, find ways to save on utilities, cook at home, keep your spare change, wait 24 hours before buying something you want - you may change your mind!

05

Make saving automatic

Set up an automatic savings deduction each pay period or each month and make saving a habit!

02

Create a spending plan

Look at your income and expenses each month. Prioritize needs and truly assess how you are currently spending. Is there any way to earn extra?

04

Ensure You Have the Proper Tools

Sign up for a safe and affordable savings account if you don't already have one. Choose an account w/ limited withdrawals so that the money you put into savings stays in savings.
