

Learn more about wildfire safety improvements helping to keep you safe!

Prepare Your Business for Safety Outages

Some of the measures included in this document are contemplated as additional precautionary measures intended to further reduce the risk of wildfires. "PG&E" refers to Pacific Gas and Electric Company, a subsidiary of PG&E Corporation. ©2025 Pacific Gas and Electric Company. All rights reserved. CCC-0725-5650. 07/07/2025

Improving safety with layers of wildfire protection

Ongoing prevention work is making our system safer and more resilient.

1,500+ weather stations
used to better monitor and respond to wildfire risk

46,000+ poles
pre-treated with fire resistant spray to enhance safety

1,500+ sectionalizing devices
applied to help reduce the impact of safety outages

1,250+ miles
of strengthened poles and covered powerlines installed

900+ miles
of powerlines undergrounded in the highest risk areas

Safety outages protect you and your business

Public Safety Power Shutoff

Planned safety outages that help prevent a wildfire when risk is high. Our goal is to **notify you one to two days before** an outage.

Learn more at **pge.com/psps**

Enhanced Powerline Safety Settings

These settings may shut off power for safety **within one-tenth of a second**, or faster, if a hazard is detected on a powerline.

Learn more at **pge.com/epss**

We will keep you updated via text, call and/or email.

Be prepared in case of a safety power outage

Before an outage

- [ ] Create an emergency plan
- [ ] Make sure your contact information with PG&E is correct to get alerts
- [ ] Explore free and reduced cost backup power options
- [ ] Sign up for Address Alerts to receive notifications for additional locations

Learn more at **pge.com/outageprep**

During an outage

- [ ] View current outages and restoration times at **pge.com/outages**
- [ ] Find local support by calling **211**, texting 'Prepare' to **211-211** or visiting **211.org**
