

THE FALLS CHURCH
EPISCOPAL
FOUNDED 1732

The Falls Church Episcopal is looking for a volunteer(s) to select and implement new professional software for the church and to lead the migration of the church's digital assets to this new software. Read the full description of the need below:

Specific tasks this individual(s) will need to undertake are:

- Lead a trade study for the best product suite for the church.
- Lead the set-up and configuration of the product suite.
- Lead the development of key workflows for clergy and staff on the product suite.
- Migrate digital assets from legacy systems to the new infrastructure.
- Lead successful adoption of the new systems by the clergy and staff by providing necessary training and consulting.

A particular initial focus in this effort will be ensuring it is easy to search for and find church documents necessary for the work of the clergy and staff.

Please contact Fr. Burl (**bsalmon@thefallschurch.org**) if you are interested.
