

Hello Everyone!

Things are moving quickly with changes rolling out every day! We have a couple of important updates for you. The first is that the Vestry has approved the reopening of the Historic Church for services and events such as weddings and funerals at a 75-person capacity. That is based on our current plan which requires masks and social distancing. We will determine a date for our first service in the HC shortly. The Vestry has also approved the use of our facilities for not only our own ministries, small groups, etc. but also outside groups as well.

The Bishop has issued new guidelines that will take effect May 28th. In response our task force will meet next week to devise a comprehensive plan that will take us through the next few months and will also remain flexible as things change rapidly.

We are excited to move towards regathering in more and more settings! If you have any questions, please email me at [kkgauthier@gmail.com](mailto:kkgauthier@gmail.com).

Many blessings!

Krista and the Regathering Task Force
