

# FastTrack GED

**Concentrated Short Term GED Program**

# About FastTrack GED

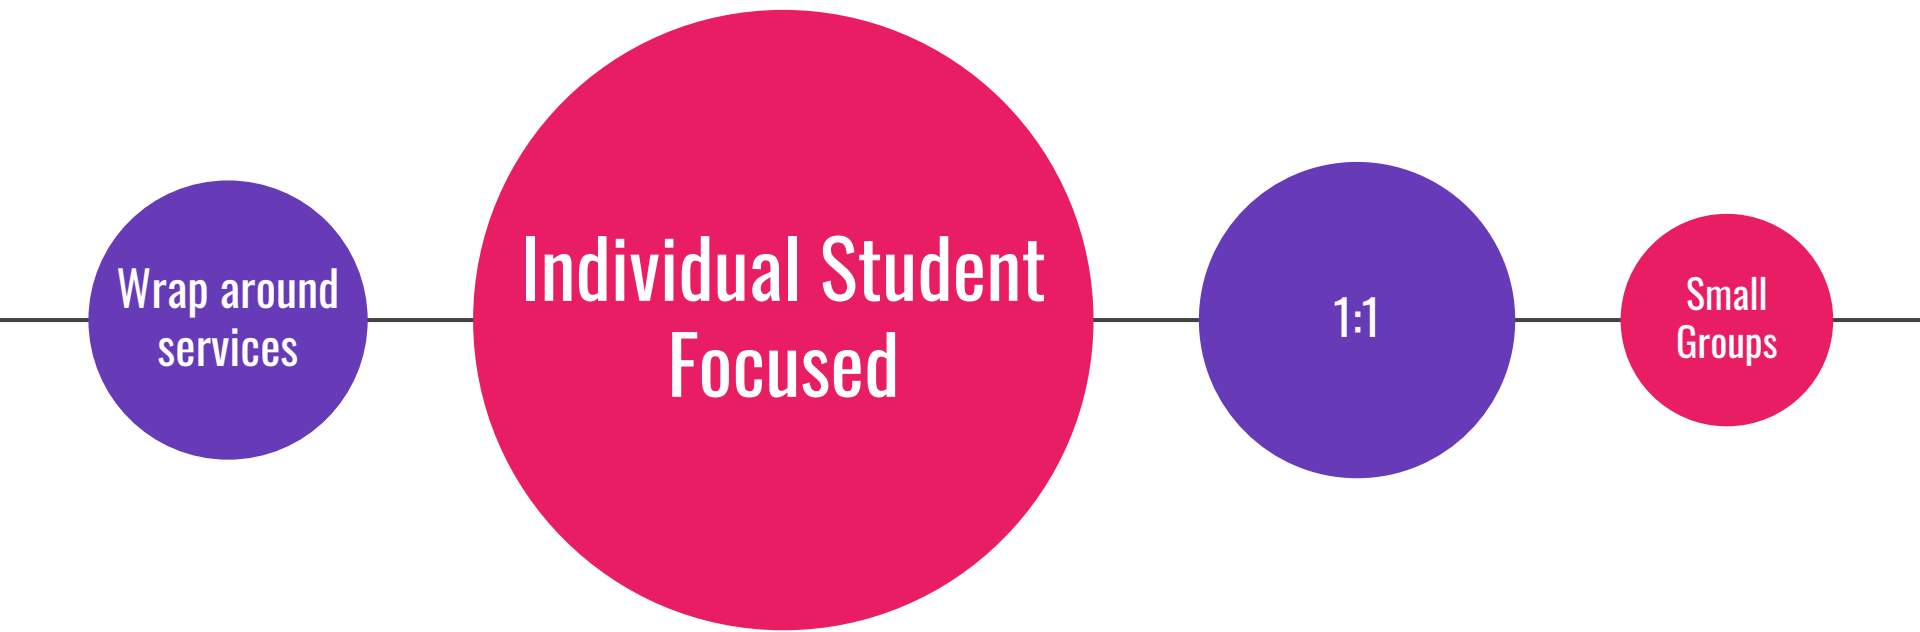

---

FastTrack GED is a pleasant, supportive, non-school setting that emphasizes student immersion in the task of passing the GED® Tests. It is appropriate for a student or young adult who is at least seventeen years old, has left the traditional high school, and is not likely to meet the graduation requirements required by the school system.

More importantly, this program is targeted at young people who have aged out of foster care, but still lack their diploma. As such, the ultimate value of the program far exceeds the securing of a high school credential. The program will result in student improving their sense of self-worth as they prepare to enter independent living. Not only do the students learn the required academic content, but they come to the realization that they CAN achieve things with effort and persistence.

FastTrack GED is now being offered through Ready for Life Brevard, Melbourne, Florida.

# Program Design

# FastTrack GED Key Points

# Program Design

— — —

Five week, two session program. 5.5 - 5 hours per day.

The program is based on assessing deficiencies and prescribing classroom content that addresses the deficiencies.
