

2026 WORKSHOP SERIES

4.25

BUILDING COMMUNITY CAPITAL & NEIGHBORHOOD WELLBEING

Explore how communities can generate and recirculate local capital in ways that expand ownership, create opportunity, and strengthen neighborhood wellbeing. Together, we will examine how investing in one another, keeping dollars circulating locally, and aligning resources with community priorities can build lasting wealth and a healthier future for all.

5.23

COMMUNITY OWNERSHIP IN HOUSING, LAND AND RENTER EQUITY

Discuss how community ownership can create greater stability, accessibility, and shared wealth through housing, land, and renter equity. Together, we will consider practical pathways to expand resident participation, strengthen long-term belonging, and ensure more people have a stake in the future of their neighborhood.

6.27

ARTS, CULTURE AND THE POWER OF BELONGING

This workshop explores how arts and culture bring people together, strengthen identity, and create spaces where residents feel seen and valued. Together, we will consider how creative expression, shared experiences, and cultural celebration can deepen belonging, reduce isolation, and help build a more connected neighborhood.

9.12

GROWING FOOD STABILITY AND ENVIRONMENTAL WELLBEING

This workshop focuses on how communities can cultivate food stability while also caring for the land, environment, and shared spaces around them. Participants will explore local possibilities for growing healthier neighborhoods through stewardship, sustainability, and mutual care.

10.17

LOCAL ENTERPRISE, JOBS, AND THE NEIGHBORHOOD ECONOMY

This workshop examines how local business activity, entrepreneurship, and job creation can strengthen the neighborhood economy and keep more resources circulating locally. We will explore ways to support enterprises that create opportunity, build ownership, and contribute to the common good.

Workshops take place at Westwood First Presbyterian Church
3011 Harrison Avenue 45211
10AM - 2PM

Light lunch served. Free parking on site.
