

Good conversations don't just happen— they're built through intentional listening.

Evergreen invites you to a practical, encouraging workshop designed to strengthen how we relate to one another. Learn how to:

- Listen with openness instead of defensiveness
- Recognize and avoid conversational shutdowns
- Create truly two-way, life-giving relationships
- Build deeper connection through deeper listening

Whether at home, at work, or in community, better listening transforms the way we show up for each other.
