Dear Members,

The latest executive order from Governor Waltz states that we must remain closed until May 18, 2020, but slowly, the world is returning to some normality!

Ensuring the continued success of 125 LIVE throughout and beyond the COVID-19 pandemic is and will continue to be a huge challenge, but it is one that we are determined to succeed in. While we are keen to return to our facility and normal routine, we must abide by state law. Unfortunately, this necessitates a continuation of the closure, but we believe that we are drawing ever-closer to reopening our doors. We are working tirelessly to ensure that 125 LIVE will provide a safe facility for your return by following all CDC, State, OSHA, and related requirements.

To summarize just some of the tasks we have undertaken in the best interest of our members and staff:

We have formulated a COVID-19 preparedness plan. Class schedules are in place. Spaces between fitness equipment have been adjusted for social distancing. Plastic shields will be installed at staff desks and between HUR machines. Safe routes for foot traffic have been laid out. The facility is being cleaned regularly and thoroughly. Once we receive the green light, we are ready to open our doors and serve you with the same passion as before our closure.

I know that while many of you are eager to return, others remain concerned about the prospect of returning to social environments. At 125 LIVE, we believe that you must do what you feel is best for you and those closest to you. To enable the continued health and wellbeing of those of you who wish to remain at home longer, we will continue and expand our offerings of virtual classes and activities. As members begin to return to the facility, we will find new and fun ways for them to interact with those of you who are still at home.

We are committed to our mission statement of enriching the lives of active adults, and we are passionate about you, our members. All of us are all eager to resume a normal life and get back to doing the things we love, and we are almost there!

To all of you who have been able to continue to support us financially, we thank you endlessly for your generosity. You have been vital in enabling us to continue our operations. Every little helps us continue to offer our online offerings, retain your favorite staff, and work toward the reopening that draws ever-closer.

Thank you all for being amazing 125 LIVE Community members.

Sylwia Bujak Oliver
125 LIVE Executive Director
