

Dear community partners,

The Area Agency on Aging's Benefits Assistance Program can help make sense of Medicare. This is a friendly reminder that the (SHIP) Benefits Assistance Program, continues to provide Medicare Health insurance counseling to beneficiaries, their families, and caregivers just as we always have. We are available Monday – Friday 8:00am to 5:00pm. Feel free to call us at **602- 280-1059**.

Additionally, we have found safe, creative, and socially distanced solutions to continue serving you during the COVID-19 pandemic. As we quickly approach the Medicare Open Enrollment, we are offering Medicare Presentations via Zoom, Microsoft Teams, and other internet applications. We would be happy to present on the 2021 Medicare updates to your community and ensure they are receiving current and unbiased Medicare updates.

To request a presentation please call or email me, I would be happy to assist in scheduling a time and date for your next virtual program offerings. We are excited to partner with all of you and help the Medicare beneficiaries with the 2021 Medicare Open Enrollment.

Don't hesitate to ask any questions or provided suggestions, we are here to help. Lastly, I have included is our program flyer, please feel free to share it with your caregivers and beneficiaries. Thank you very much!

Sincerely,

Maryna Sachs
