# STOCK DONATION LIAISON PROGRAM (SDLP)

## **Two-fold benefits of appreciated stock donations**

1. Recipient enjoys profit/growth on the donation until it is used.
2. Donor receives two benefits from one gift - minimizing tax costs, maximizing tax deductions.

## **How does it benefit the recipient organization?**

If an organization receives a donation of stocks/shares, it will be a form of investment and it may continue to grow until the organization decides to cash it. This way, the donation will go a longer way in helping to fulfill pressing needs.

## **How does it benefit the donor?**

1. If you itemize deductions, you can claim a charitable deduction equal to the stock's fair market value, and
2. You can avoid the capital gains tax you'd have to pay if you sold the stock.

## **Here is the step by step process:**

Once a donor shares their wish to donate stocks to your organization, simply send them the Letter of Instructions, and then let us know when both parties are ready to transfer the stocks. NAIT will serve as a guide and liaison to receive the donation on your organization's behalf - all in a painless and reliable manner.
