

Dear patients:

In light of the current world pandemic, as your personal physician(s) I/we urge you to stay in your own homes as much as possible for your safety, for that of your friends and family, and for our community at large.

Covid-19 is highly contagious. It can live on surfaces up to 72 hours. Please avoid personal interactions and touching anything outside your homes.

This virus is nothing to take lightly. There is no need to be afraid, but it is critical to take all intelligent precautions to avoid it. We can all help avoid catching and transmitting this virus by following the recommendations from the Department of Health and local authorities.

If you have any questions, I/we encourage you to call your my/our office at xxx-xxx-xxxx. You can also call the Department of Health hotline after business hours at 866-779-6121. Call 911 if you have a medical emergency and notify dispatch if there's a risk you might have COVID-19.

Sincerely,
