

The Retired Physicians Association of Southwest Florida was formed in 1995, and continues its mission for Retired Physicians in Collier and Lee Counties. We strive to have programs that allow our members to remain in touch with ongoing medical developments, as well as to stay in touch with other physicians.

From November through March, we have monthly meetings, with opportunities for CME credits through the NCH system included in the membership. Because of COVID-19, we have conducted virtual meetings via the WebEx system as presented by the NCH system. Normally we have three meetings at NCH Telford Hall, as well as programs about the community at other locations. We also have two other social events during the year where you can meet up with your old colleagues, as well as make new friends among those who have retired to our area.

COVID-19 has allowed us and NCH to expand the availability of our lectures. NCH will continue to record live lectures even after COVID-19 has been successfully dealt with, and our members will have access to NCH's extensive educational programs. This will permit members to view the lectures virtually if they have other commitments during the time of the live lectures. This permits other CME opportunities for those who wish to attend in person or via virtual attendance. CME can only be given to those who attended the time of the meeting.

We hope that you will take the opportunity to learn more about us by accessing our website.

This will present the opportunity to join our organization. Because our events have been curtailed this year by COVID-19, anyone who joins now can participate in our final programs and satisfy the dues for our 2021-2022 season.

We are happy to answer additional questions. Please join us.
