Florida Department of Health Updates New COVID-19 Cases, Announces Forty-Five Deaths Related to COVID-19 ~Florida has record-high number of more than 142,900 test results reported in one day; third-day decline in percent positivity of new cases~

TALLAHASSEE — Today, the Florida Department of Health (DOH) reported a record-high number of test results received in one day, in addition to a third-day decline in percent positivity of new cases. On July 11, 142,981 test results were reported to the state and 11.25 percent of new cases** tested positive.

DOH, in order to provide more comprehensive data, releases a report on COVID-19 cases in Florida once per day. The DOH COVID-19 dashboard is also providing updates once per day. The state also provides a report detailing surveillance data for every Florida county, which is available [here](#).

In order to make the daily COVID-19 report easier to download and more accessible, the daily report will now separate case line data in a separate PDF. Both reports will continue to be updated daily. The case line data report is available [here](#).

Test results for more than 142,900 individuals were reported to DOH as of midnight, on Saturday, July 11. Today, as reported at 11 a.m., there are:

- 15,300 new positive COVID-19 cases (15,135 Florida residents and 165 non-Florida residents)
- 45 Florida resident deaths related to COVID-19

There are a total of 266,119 positive cases in Florida residents and 3,692 positive cases in non-Florida residents.

There are a total of 269,811 Florida cases*** with 4,242 deaths related to COVID-19.

Since July 11, the deaths of forty-five Florida residents who tested positive for COVID-19 have been reported in Brevard, Broward, Charlotte, Dade, Duval, Hernando, Hillsborough, Holmes, Lee, Martin, Palm Beach, Polk, Seminole and St. Lucie counties.

Florida long-term care facility data:

- The list of long-term care facilities with active COVID-19 cases is available [here](#).
- The list of long-term care facilities with deaths is available [here](#), which is updated weekly.

- To date, 2,100 individuals that were staff or residents of a long-term care facility have died.

The antibody COVID-19 test results report will be provided once a week and contains county, race and lab information on antibody COVID-19 tests conducted in Florida. The report for antibody tests conducted by private health care providers is available [here](#) and the report for antibody tests conducted at state-supported COVID-19 testing sites is available [here](#).

More information on a case-by-case basis can also be found [here](#).

* Florida residents that are diagnosed with COVID-19 and isolated out of state are not reflected on the Florida map.

**This percentage is the number of people who test positive for the first time divided by all tests, excluding people who have previously tested positive.

***Total cases overview includes positive cases in Florida residents and non-Florida residents tested in Florida.
